Topics of Interest: Original papers are invited on recent advances in computer communications and networking. Topics of interest include, but are not limited to, the following:

- Ad hoc mobile networks
- Addressing & location management
- Broadband access technologies
- Capacity planning
- Cellular & broadband wireless nets
- Congestion control
- Content distribution
- Denial of service
- IPv6 & IPv6 transition
- Multicast & anycast
- Multimedia protocols
- Mobility models & systems
- Network applications & services
- Network architectures
- Network control by pricing
- Network management
- Novel network architectures
- Optical networks
- Peer-to-peer communications
- Performance evaluation
- Power control
- Pricing & billing
- Quality of service
- Resource allocation & management
- Routing protocols
- Scheduling & buffer management
- Security, trust, & privacy
- Self-organizing networks
- Sensor nets & embedded systems
- Service overlays
- Switches & switching
- Topology characterization & inference
- Traffic analysis, engineering, & control
- Virtual & overlay networks
- Web services & performance
- Wireless networks and protocols
